DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-11 of U.S. Patent No. 6,687,351. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1-20 of the instance application is similar in scope to claims 1-11 of U.S. Patent No. 6,687,351 with obvious wording variations. For example:

The U.S. Patent No. 6,687,351 claimed for a method of providing an enhanced telecommunications dialing feature on a commercial class of dedicated telephone service, comprising: establishing a feature identification code (FID) for the dialing feature on the commercial class of dedicated telephone service. Assigning a network access register (NAR) to a dedicated commercial telephone line, wherein the dedicated commercial telephone line is for at least one terminating piece of customer premises equipment that is in communication with a telecommunications service provider central office. Associating the FID with the NAR assigned to the dedicated commercial telephone line, wherein the enhanced telecommunications dialing

Application/Control Number: 10/661,338

Art Unit: 2643

feature is provided by the telecommunications service provider at the central office and billing the customer associated with the dedicated line for the enhanced dialing features.

3. Any response to this action should be mailed to:

Commissioner of Patents and Trademarks Washington, D.C. 20231 Facsimile responses should be faxed to:

(703) 872-9306

Hand-delivered responses should be brought to:

Crystal Park II, 2121 Crystal Drive

Arlington. VA., Sixth Floor (Receptionist)

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Quoc Tran** whose telephone number is **(703)** 306-5643. The examiner can normally be reached on Monday-Thursday from 8:00 to 6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Curtis Kuntz**, can be reached on **(703)** 305-4708.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the **Technology Center 2600** whose telephone number is (703) 306-0377.
